MacOS

For security reasons, to use the ETC WiFi you need to install a certificate on your device. This only needs to happen once per device you use.

How to install the certificate:

Step 1:

Go to your WiFi settings and connect to the **ETC WiFi**.

You should automatically see the screen on the right, if not please disconnect and reconnect to **ETC WiFi**

Please read the terms of use before proceeding, if you agree to the terms tick the "**I accept the terms of use"** box.
Then sign in with your college account name/number and password.

If you are a Visitor and have been issued a voucher, enter the code in the voucher box.

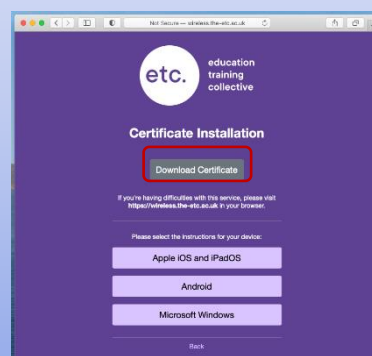

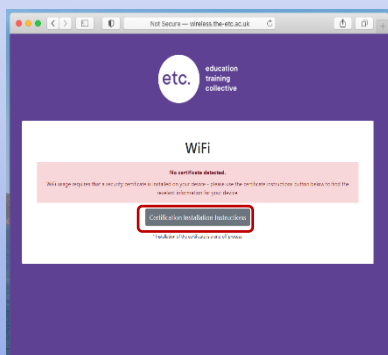

Step 2:

To install the certificate, open a web browser and go to the website below and then follow the instructions for your device.
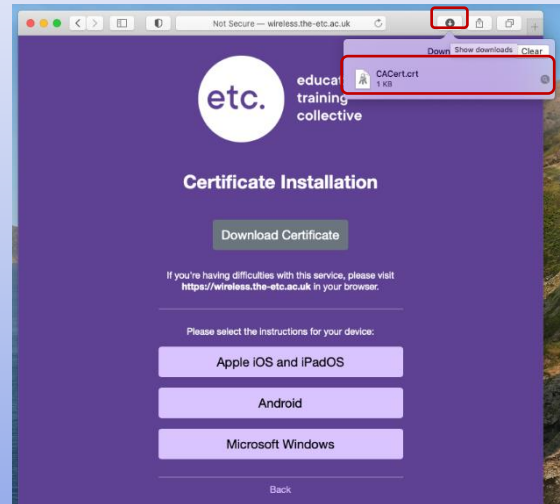

wireless.the-etc.ac.uk

Step 3:

Click on **"Certification Installation"** instructions and then click on "**Download Certificate"**.
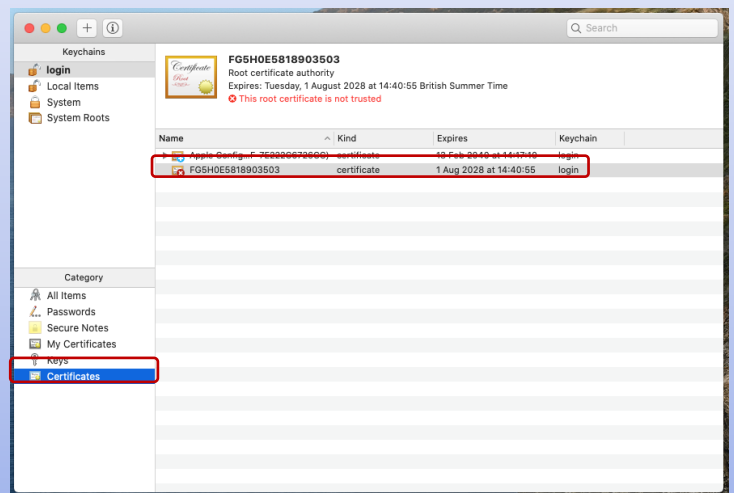

Step 4:

Click on ![down arrow icon] in the top right corner and then click on **CACert.crt**

Step 5:

Click on **Certificates** and then double click on the certificate with ![certificate icon] next to it.

Step 6:

Click on the **Trust** drop down.

Click on the drop down next to **When using this certificate** and select **Always Trust**.

Close the window down by clicking the red dot in the top left.

Entre your Mac's username and password then click on **Update Settings**.
